3. Guest Browse jobs

                                                                                   (8 hours)

- Creating new page for guests
- Creating controller to block content
- Redirecting on any attempt to view anything
- Styling page accordingly

4. Google maps integration

(8 hours)

- Adding location autocomplete to forms (set restrictions to SA)
- Adding map with pinned location to Job offer page

5. Emails

Only registration and forgot password emails are in scope. Thus will not be included in this estimation.

- Styling of emails (15 emails in total)	(6 hours)
- Creating all HTML versions of emails	(6 hours)
- Sending emails at each event	(6 hours)
- Turn off email notifications functionality	(2 hours)

6. Payment portal

I cannot estimate this functionality as I am not aware of all the work required to make this possible. Me and Ryno will have to discuss this.

7. Unit and integration testing of new functionality

(8 hours)

TOTAL: 62 Hours

+- 1 Week
